

Defibrillation Training Course

Course fee: £495 + VAT for up to 12 delegates

This course is designed for all trained First Aiders or companies who wish to introduce this life saving piece of equipment into their working environment.

Statistics

*“Over 150,000 people die from cardiac arrests in the UK each year. The majority might be saved if only their heart could be defibrillated (shocked back into rhythm) within 5 minutes. A trained operator using an automated external defibrillator can raise the chance of survival from 5% - 80%”.
St Johns Ambulance 2004*

Course topics:

- Basic life support – including an assessment of the delegate’s CPR skills
- Cardiopulmonary Resuscitation
- Maintenance and care of the automated external Defibrillator
- How to identify when it is necessary to use the Defibrillator
- Practical Scenarios
- Assessments

3-4 hour course

Refresher courses should be done every 6 months

In order for delegates to be awarded the A.E.D certificate and record card, ongoing assessment by the trainer throughout the course takes place on the practical skills learnt
